

I receive on average 20 phone calls a day from telemarketers. They start at 8:00am and generally last until 9:00pm, including weekends. It's gotten so bad that I don't answer my phone anymore. Something has got to be done. I am on the National Do Not Call List, but it hasn't stopped these telemarketers one bit. Either the National laws need to be stiffened or the New Jersey laws must stand as is.
